

The KIMI PLUS is designed for the specific requirements of the following industries:

**Mining, oil  
and gas industry**

**Chemical and  
petrochemical industry**

**Transport**

**Defence**

The KIMI PLUS model provides users with short-term respiratory tract protection in situations such as chemical spills and the use of chemical weapons with a relatively high concentration of hazardous materials. Mask enables rapid response and evacuation in emergencies, in which the respiratory system is vulnerable. The KIMI PLUS mask protects the user from organic gases with a boiling point above 65°C, many inorganic gases, sulphur gases, acidic gases and ammonia and ammonia derivatives. It also protects against these substances in the form of particles. The KIMI PLUS is equipped with ABEK1 gas filters with the P2 electrostatic particle filtration approved according to EN 13487: 2004.

		MASKITO	CHEMBAYO	KIMI	KIMI PLUS	COGO
Maximum concentration of gas content (ppm)	Organic compounds (A)	100	500 (+DMMP)	500	1000	100
	Inorganic compounds (B)	100	500 / 100 dla (CK)v	500	1000	400
	Acids (E)	100	500	500	1000	1000
	Ammonia (K)	-	500	500	1000	-
	CO	-	-	-	-	10 000
Penetration of particles (%)	> 94	> 99.995	> 99	> 94	> 94	
Dimensions (L x W x H - cm)	12,5 x 6 x 2	14,5 x 12 x 3,5	14,5 x 12 x 3,5	14 x 12 x 6	10 x 12 x 14	
Weight (g)	150	250	250	450	650
