

The MASKITO compact emergency rescue mask is suitable for almost all non-industrial civil environments and meets the requirements of the various sectors:

Civil and national institutions

High-rises

Hotels and residential estates

Medical - hospitals and care homes

Transport vessels, cruise ships and airplanes

Security institutions

A very compact device for respiratory tract protection, designed for self-rescue in emergencies, where there is smoke and hazardous vapours. The MASKITO provides short-term respiratory tract protection against toxic gases and particles, including HCl, SO₂, NO₂, C₆H₁₂ and tear gas (CS).
