

4-function outer vest is dedicated in particular to Police officers and other armed uniformed formations. Sheathing of the vest is made of flame-retardant polyamide fabric and polyamide laminate – flame-retardant.

Features:

- Minimalistic, comfortable design allowing maximum freedom of movement and adapting the configuration to operational requirements.
- The ability to quickly put on / take off the vest (without the need to re-adjust in the circumference and length) – thanks to the centrally located zip fastening – separating QR type.
- The special design of the front part of the vest enables the installation of a one-piece (not divided) ballistic insert, which guarantees the continuity of ballistic protection.
- Product availability in two variants of external sheathing:
 - Sheathing in navy blue, with reflective elements and the possibility to mask them – depending on the operational needs / preferences of the User.
 - Sheathing in yellow – neon (in accordance with PN-EN ISO 20471:2013 "High-visibility clothing. Test methods and requirements"), with fixed reflective elements.
- Can be used in various weather conditions.
- A wide range of adjustments in the circumference and in the length.
- Comfort of use (application of breathable material).
- Modularity of the kit – the front part of the vest is covered with laser-cut holes that allow for assembly (in the MOLLE/PALS system) of pouches and functional pockets in a location chosen by the user.
- Attractive product design.
- Sheathing made of fabric/laminate with above-average physical and mechanical properties, in particular in the scope of mechanical resistance, flame retardancy, ozone resistance, etc.

OUTER VEST 4-FUNCTION

**LUBAWA SA**

Ballistic resistance:

- K2 – O3 acc. to PN-V-87000:2011¹
- Level 1 acc. to NIJ0115.00²

Weight:

- Ca. 4,4kg³

Completion:

- Outer sheathing (navy blue and/or yellow – neon)
- Textile ballistic insert – front
- Textile ballistic insert – rear
- Personal first aid kit
- Pocket for service notebook
- Universal radio pocket
- Mounting pocket for personal camera
- Transport bag
- User manual / warranty card.

¹ K2: 7.62 ×25mm TT, weight 5.5 g, impact speed 420 m/s ±15 m/s
O3: resistance against a 1.1 g fragment, impact speed from 600 m/s to 675 m/s.

² Resistance to the impact of the P1/S1 combat knife with energy of 24 J / 36 J and the impact of the SP1 spike with the energy of 24 J / 36 J.

³ The weight applies to the vest sheathing in navy blue or neon yellow, size L (without accessories) with a set of textile ballistic inserts (front and rear insert).
