

The **GW-1 S.E.R.E. knife** manufactured by the Polish company Lubawa SA is a specialised knife designed for soldiers and flight personnel in accordance with the guidelines of the S.E.R.E. (Survival, Evasion, Resistance, Extraction) training programme. It was developed based on the experience of special forces soldiers and S.E.R.E. instructors and perfectly complements the equipment used in survival, rescue systems and bushcraft techniques. It is designed for the most difficult conditions. The Full Tang design ensures maximum mechanical strength, and the aggressive blade geometry makes it ideal for both heavy camp work and precise trap setting or game dressing. The blade is made of top-quality stainless steel, hardened to 56-58 HRC, and is characterised by increased resistance to cracking and outstanding corrosion resistance, which guarantees reliability in all conditions.

This is not just another knife – it is a well-designed tool for those who do not accept half measures and need full cutting efficiency in all conditions, even the most difficult ones.

#### KEY FEATURES:

- A versatile knife for a wide range of applications
- Reliable blade and handle for a secure, comfortable grip
- Lightweight ABS holster included
- Grooves on the back of the blade

#### Technical parameters

BLADE LENGTH	120 mm
BLADE THICKNESS	4.4 mm
BLADE WIDTH	33.3 mm
GRIND HEIGHT	20 mm
BLADE PROFILE	CLIP-POINT
CLADDING MATERIAL	Laminate
HOLSTER MATERIAL	ABS plastic
BLADE HARDNESS	56-58 HRC
DESIGN	FULL TANG
FINISH	ACID STONEWASH
SHARPENING ANGLE	20
BLADE TYPE	Smooth
KNIFE WEIGHT	270 g
KNIFE WEIGHT WITH SHEATH	350 g
TOTAL LENGTH OF KNIFE	244 mm
