

Description:

- 'MARS' vest is designed to be used by male operators of Police force or other armed forces.
- The vest is especially designed for concealed carry under clothing.
- Unique structure ensures maximum comfort of movement with maximum area of protection retained.
- Equipped with internal elastic stabilizing band that improves comfort of wearing.
- Adjustable height with shoulder velcro straps.
- Side adjustment with three-point velcro side straps that guarantee firm trussing and adapt the vest to body shape.
- Distribution and structure of straps do not damage the outer clothing.
- High comfort of use ensured by best quality materials, including internal spacing knit that provides proper ventilation and sweat drainage.
- Proven quality due to abrasion-resistant materials that do not dye outer clothing and do not cause allergic reactions.
- Modern design.
- Broad velcro area facilitates strapping and adjustment.
- Pouch for soft ballistic plates closed with a concealed zipper.
- Tree-point side strap ensuring firm stabilization and fitting.
- Profiled bottom part of vest, adapting to user's body shape, facilitates sitting down.
- Ballistic resistance: K2-O3 according to PN-V-87000:2011.
- Resistance class 1 according to NIJ0115.00:
 - Protects against knife impact P1/S1 at 24 J / 36 J.
 - Protects against spike penetration SP1 at 24 J / 36 J.
- Lightweight: about 2.38 kg for size L.

Thanks to a unique structure of textile ballistic plates and a system of velcro straps, the 'MARS' concealed vest allows for smooth adjustment and perfect fit to the user's body shape in the following sizes.
